Either way is fine with me as well, just did not want it to come as a surprise to u without us coordinating. Have a good morning. Also, please note there is a RA/DRA briefing on SO2 litigation/Clean Data Determination Tuesday at 1:30. I believe our groups have been working together on this.

Good morning David

Thanks. That's interesting. I thought the meeting request would come from the program side. I guess it makes sense for me to raise it since it's coming from OGC but I'm fine if you'd rather raise it yourself. I'll ask OGC about the day and time.

Subject: Project 2025/LOOP

Hi Suzanne,

I understand t Matt Leopold has set up a meeting for this week (I need to find the exact day and time) with Anne Idsal to discuss option on how to respond to the April 7, 2020 letter where Project 2025 can challenge EPA's air permitting jurisdiction on a final EPA action. Do you wish to bring this up at senior staff?
